## AN ACT

#### RELATING TO FOOD AND DRUGS -- UNIFORM CONTROLLED SUBSTANCES ACT

Introduced By: Representative Matthew S. Dawson

Date Introduced: February 02, 2024

Referred To: House Judiciary

(Dept. of Health)

It is enacted by the General Assembly as follows:

- 1 SECTION 1. Section 21-28-2.1 of the General Laws in Chapter 21-28 entitled "Uniform
- Controlled Substances Act" is hereby amended to read as follows: 2
- 3

## 21-28-2.01. Authority to control — Registration requirements and procedures.

- (a)(1) The director of the department of health shall control all substances enumerated in § 4
- 21-28-2.08 or the most current version of Title 21 of the Code of Federal Regulations (CFR) and 5

may by motion or on the petition of any interested party pursuant to the procedures of chapter 35 6

7 of title 42, the Administrative Procedures Act, add, reschedule, or delete a substance as a controlled

- 8 substance. In making this determination, the director of health shall consider, but not be limited to
- 9 the following:
- 10 (i) (Its actual or relative potential for abuse;
- 11 (ii) Scientific evidence of its pharmacological effect if known;
- 12 (iii) State of current scientific knowledge regarding the substance;
- 13 (iv) Its history and current pattern of abuse;
- 14 (v) The scope, duration, and significance of abuse;
- 15 (vi) What, if any, risk there is to the public health;
- (vii) Its psychic or physiological dependence liability; 16
- 17 (viii) Whether the substance is an immediate precursor of a substance already controlled
- under this chapter. 18
- 19 (2) After considering the factors in subdivision (1) of this section the director of health

shall make findings with respect to these factors and shall issue an order controlling the substance
if it is found that the substance has potential for abuse.

3 (b) If the director of health designates a substance as an immediate precursor, substances
4 which are precursors of the controlled precursor shall not be subject to control solely because they
5 are precursors of the controlled precursor.

6 (c) If any substance is designated, rescheduled, or deleted as a controlled substance under 7 federal law and notice of that action is given to the director of health, he or she shall similarly 8 control the substance under this chapter after the expiration of sixty (60) days from publication in 9 the federal register of a final order designating a substance as a controlled substance or rescheduling 10 or deleting a substance, unless within that sixty (60) day period, the director of health objects to 11 inclusion, rescheduling, or deletion. In that case, the director of health shall publish the reasons for 12 objection and afford all interested parties an opportunity to be heard. At the conclusion of the 13 hearing, the director of health shall publish his or her decision, which shall be final unless altered 14 by statute. The director of health shall publish and file his or her decision with the secretary of state. 15 Upon publication of objection to inclusion, rescheduling, or deletion under this chapter by the director of health, control under this chapter is stayed until the director of health publishes his or 16 17 her decision. The director of the department of health shall reference the current version of Title 21 18 of the CFR as the current list of substances designated, rescheduled, or deleted as a controlled 19 substance for the state. If the director objects to inclusion, rescheduling, or deletion of any substance 20 under the current federal law, or if the director adds or reschedules a controlled substance pursuant 21 to the authority provided in this chapter, the director shall file that decision with the secretary of 22 state and post exempted substances on the department of health website.

- 23 (d) The following persons need not register and may lawfully possess controlled substances
   24 under this chapter:
- (1) An agent or employee of any registered manufacturer, distributor, or dispenser of any
  controlled substance if he or she is acting in the usual course of his or her business or employment;
  (2) A common or contract carrier or warehouse operator, or an employee of a carrier or
  warehouse operator, whose possession of any controlled substance is in the usual course of business
  or employment;
- 30 (3) An ultimate user or a person in possession of any controlled substance pursuant to a
  31 lawful order of a practitioner or in lawful possession of a schedule V substance.

(e) The director of health may waive by rule the requirement for registration of certain
manufacturers, distributors, or dispensers if he or she finds it consistent with the public health and
safety.

1	(f) A separate registration is required at each place of business where the applicant
2	manufactures, distributes, or dispenses controlled substances. A separate registration is required at
3	each place of professional practice at which a practitioner stores controlled substances. A
4	practitioner may prescribe and administer controlled substances, upon registering with the director
5	of health at the applicant's principal place of professional practice.
6	(g) The director of health or his or her authorized agent may inspect the establishment of a
7	registrant or applicant for registration in accordance with his or her regulations.
8	SECTION 2. Sections 21-28-2.8, 21-28-2.9 and 21-28-2.10 of the General Laws in Chapter
9	21-28 entitled "Uniform Controlled Substances Act" are hereby repealed.
