- (iv) Exercise;
- 14
- (v) Compliance with medical regime; and
- 15
- (vi) Reporting changes and problems to the patient's podiatrist if one is provided or
- 16
- identified by the client.
- 17
- (2) "Home services" means in an individual's private residential space or dwelling. It
- 18
- includes houses, apartments, condominiums, or other buildings where people live independently or
- 19
- with limited personal assistance, such as an assisted living facility. It does not include facilities

1 such as long-term care nursing homes, hospitals or other facilities or in-patient units where twenty-
2 four (24)-hour clinical care is available, nor does it include commercial or public spaces or the
3 common/community areas of multi-unit dwellings such as apartment buildings, condominiums, or
4 senior centers.

5 (c) Nurses who provide home services foot care must have theoretical knowledge of and
6 demonstrate clinical competency in:

7 (1) Foot and lower extremity anatomy and physiology;

8 (2) Structure and function of the foot and nail;

9 (3) Common foot pathology and related nursing interventions;

10 (4) Changes in the foot due to age and chronic diseases;

11 (5) Nursing assessment of the foot and lower extremity;

12 (6) Use of instruments used in nursing foot care; and

13 (7) Infection control.

14 (d) Home services foot care is considered a nursing intervention that includes, but is not
15 limited to, the following components:

16 (1) Assessing past medical history including diabetes mellitus, peripheral vascular disease
17 or peripheral neuropathy;

18 (2) Assessing health habits affecting feet and lower extremities (activity level, exercise,
19 obesity, diet, smoking, etc.);

20 (3) Assessing circulation;

21 (4) Assessing skin integrity, foot and nail structure;

22 (5) Assessing pain and methods of relief;

23 (6) Implementing a plan of foot care that is consistent with recognized standards of practice
24 that includes:

25 (i) Hygiene and shortening of toe and finger nails;

26 (ii) The use of emery boards or pedicure drill with emery disc attachment, to smooth corns
27 or calluses;

28 (iii) Referring the patient to an appropriate practitioner for further assessment and orders
29 when alterations in skin integrity, foot structure and/or other abnormalities require application of
30 prescribed or over-the-counter treatments/devices;

31 (iv) Evaluating client response to a plan of care; and

32 (v) Appropriate client education.

33 (e) A nurse providing in-home foot care shall ensure that two (2) hours of continuing
34 education out of the ten (10) hours required per certification period must be focused on foot care.

1 (f) A nurse whose home care services are limited to providing home services foot care
2 pursuant to and as described in this section shall not be deemed to be a home nursing care provider
3 or a home care provider for purposes of §§ 23-17-10 and 23-17-42.

4 SECTION 2. This act shall take effect upon passage.

EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO BUSINESSES AND PROFESSIONS -- NURSES

1 This act would permit a nurse who has the appropriate knowledge and who can demonstrate
2 clinical competency, to be able to provide home services foot care, which would include routine
3 foot and nail care, as well as implementing a plan of footcare that includes hygiene and the
4 shortening of toe and finger nails. A nurse providing in-home foot care would ensure that two (2)
5 hours of continuing education out of the ten (10) hours required per certification period would be
6 focused on foot care.

7 This act would take effect upon passage.
