STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2026

A N A C T

RELATING TO INSURANCE -- ACCIDENT AND SICKNESS INSURANCE POLICIES --  
THE MATTHEW FEDERICO DIABETIC SAFETY ACT

Introduced By: Representatives McGaw, Shekarchi, Hull, Craven, Corvese, J. Lombardi,  
Diaz, Donovan, and Kazarian  
Date Introduced: January 14, 2026

Referred To: House Health & Human Services

It is enacted by the General Assembly as follows:

1           SECTION 1. The general assembly hereby finds and declares that:

2           The Rhode Island general assembly recognizes that glucagon auto-injectors are life-saving  
3 medications, that must be administered quickly to be effective. Such administration is often done  
4 by persons who are not health care professionals, and is done in an emergency situation.  
5 Accordingly, it is in the best interests of the people of the state to promote the widespread  
6 availability of glucagon, that does not require reconstitution. Hypoglycemia, or low blood glucose,  
7 is a barrier to diabetes control, leads to worse clinical outcomes, stress, increased cost of care and  
8 polypharmacy. For unconscious patients, and those unable to ingest oral glucose, glucagon in the  
9 ambulatory setting is indicated, but often underutilized, due to excessive cost.

10           SECTION 2. Chapter 27-18 of the General Laws entitled "Accident and Sickness Insurance  
11 Policies" is hereby amended by adding thereto the following section:

12           **27-18-96. Glucagon hypoglycemia medications.**

13           Every individual or group health insurance contract, plan, or policy that provides  
14 prescription coverage and that is delivered, issued for delivery, prescribed, or renewed in this state  
15 on or after January 1, 2027, shall provide coverage for at least one type of glucagon auto-injector,  
16 nasal spray or formulation not requiring reconstitution. There shall be no copayment required and  
17 no deductible shall need to be met, to obtain two (2) glucagon auto-injectors, nasal spray or non-  
18 reconstituted formulation covered by the contract, plan, or policy, every twelve (12) month plan

1 year. A deductible may be applied to health plans that are paired with federally qualified health  
2 savings account pursuant to 26 U.S.C § 223. Nothing in this section would prohibit a health plan  
3 from implementing this benefit prior to January 1, 2027.

4 SECTION 3. Chapter 27-19 of the General Laws entitled "Nonprofit Hospital Service  
5 Corporations" is hereby amended by adding thereto the following section:

6 **27-19-88. Glucagon hypoglycemia medications.**

7 Every individual or group health insurance contract, plan, or policy that provides  
8 prescription coverage and that is delivered, issued for delivery, prescribed, or renewed in this state  
9 on or after January 1, 2027, shall provide coverage for at least one type of glucagon auto-injector,  
10 nasal spray or formulation not requiring reconstitution. There shall be no copayment required and  
11 no deductible shall need to be met, to obtain two (2) glucagon auto-injectors, nasal spray or non-  
12 reconstituted formulation covered by the contract, plan, or policy, every twelve (12) month plan  
13 year. A deductible may be applied to health plans that are paired with federally qualified health  
14 savings account pursuant to 26 U.S.C § 223. Nothing in this section would prohibit a health plan  
15 from implementing this benefit prior to January 1, 2027.

16 SECTION 4. Chapter 27-20 of the General Laws entitled "Nonprofit Medical Service  
17 Corporations" is hereby amended by adding thereto the following section:

18 **27-20-84. Glucagon hypoglycemia medications.**

19 Every individual or group health insurance contract, plan, or policy that provides  
20 prescription coverage and that is delivered, issued for delivery, prescribed, or renewed in this state  
21 on or after January 1, 2027, shall provide coverage for at least one type of glucagon auto-injector,  
22 nasal spray or formulation not requiring reconstitution. There shall be no copayment required and  
23 no deductible shall need to be met, to obtain two (2) glucagon auto-injectors, nasal spray or non-  
24 reconstituted formulation covered by the contract, plan, or policy, every twelve (12) month plan  
25 year. A deductible may be applied to health plans that are paired with federally qualified health  
26 savings account pursuant to 26 U.S.C § 223. Nothing in this section would prohibit a health plan  
27 from implementing this benefit prior to January 1, 2027.

28 SECTION 5. Chapter 27-41 of the General Laws entitled "Health Maintenance  
29 Organizations" is hereby amended by adding thereto the following section:

30 **27-41-101. Glucagon hypoglycemia medications.**

31 Every individual or group health insurance contract, plan, or policy that provides  
32 prescription coverage and that is delivered, issued for delivery, prescribed, or renewed in this state  
33 on or after January 1, 2027, shall provide coverage for at least one type of glucagon auto-injector,  
34 nasal spray or formulation not requiring reconstitution. There shall be no copayment required and

1 no deductible shall need to be met, to obtain two (2) glucagon auto-injectors, nasal spray or non-  
2 reconstituted formulation covered by the contract, plan, or policy, every twelve (12) month plan  
3 year. A deductible may be applied to health plans that are paired with federally qualified health  
4 savings account pursuant to 26 U.S.C § 223. Nothing in this section would prohibit a health plan  
5 from implementing this benefit prior to January 1, 2027.

6 SECTION 6. This act shall take effect upon passage.

EXPLANATION  
BY THE LEGISLATIVE COUNCIL  
OF  
A N A C T  
RELATING TO INSURANCE -- ACCIDENT AND SICKNESS INSURANCE POLICIES --  
THE MATTHEW FEDERICO DIABETIC SAFETY ACT

\*\*\*

1           This act would require, commencing January 1, 2027, group health plans and health  
2 insurance issuers that provide prescription benefits to cover at least one type of glucagon auto-  
3 injector, nasal spray, or formulation which does not require reconstitution to treat hypoglycemia  
4 with two (2) glucagon auto-injectors every plan year. No copayment or deductible would be  
5 required to obtain prescribed glucagon medications.

6           This act would take effect upon passage.
