It is enacted by the General Assembly as follows:

1 SECTION 1. Section 42-11-10 of the General Laws in Chapter 42-11 entitled "Department
2 of Administration" is hereby amended to read as follows:

3 **42-11-10. Statewide planning program.**

4 (a) Findings. The general assembly finds that the people of this state have a fundamental
5 interest in the orderly development of the state; the state has a positive interest and demonstrated
6 need for establishment of a comprehensive, strategic state planning process and the preparation,
7 maintenance, and implementation of plans for the physical, economic, and social development of
8 the state; the continued growth and development of the state presents problems that cannot be met
9 by the cities and towns individually and that require effective planning by the state; and state and
10 local plans and programs must be properly coordinated with the planning requirements and
11 programs of the federal government.

12 (b) Establishment of statewide planning program.

13 (1) A statewide planning program is hereby established to prepare, adopt, and amend
14 strategic plans for the physical, economic, and social development of the state and to recommend
15 these to the governor, the general assembly, and all others concerned.

16 (2) All strategic planning, as defined in subsection (c) of this section, undertaken by all
17 departments and agencies of the executive branch unless specifically exempted, shall be conducted
18 by or under the supervision of the statewide planning program. The statewide planning program

1 shall consist of a state planning council, and the division of planning, which shall be a division
2 within the department of administration.

3 (c) Strategic planning. Strategic planning includes the following activities:

4 (1) Establishing or identifying general goals.

5 (2) Refining or detailing these goals and identifying relationships between them.

6 (3) Formulating, testing, and selecting policies and standards that will achieve desired
7 objectives.

8 (4) Preparing long-range or system plans or comprehensive programs that carry out the
9 policies and set time schedules, performance measures, and targets.

10 (5) Preparing functional, short-range plans or programs that are consistent with established
11 or desired goals, objectives, and policies, and with long-range or system plans or comprehensive
12 programs where applicable, and that establish measurable, intermediate steps toward their
13 accomplishment of the goals, objectives, policies, and/or long-range system plans.

14 (6) Monitoring the planning of specific projects and designing of specific programs of short
15 duration by the operating departments, other agencies of the executive branch, and political
16 subdivisions of the state to ensure that these are consistent with, and carry out the intent of,
17 applicable strategic plans.

18 (7) Reviewing the execution of strategic plans, and the results obtained, and making
19 revisions necessary to achieve established goals.

20 (d) State guide plan. Components of strategic plans prepared and adopted in accordance
21 with this section may be designated as elements of the state guide plan. The state guide plan shall
22 be comprised of functional elements or plans dealing with land use; physical development and
23 environmental concerns; economic development; housing production; energy supply, including the
24 development of renewable energy resources in Rhode Island, and energy access, use, and
25 conservation; human services; climate change and resiliency; and other factors necessary to
26 accomplish the objective of this section. The state guide plan shall be a means for centralizing,
27 integrating, and monitoring long-range goals, policies, plans, and implementation activities related
28 thereto. State agencies concerned with specific subject areas, local governments, and the public
