18 except as may be required by federal law.

19 **23-100-9. Noncooperation.**

20 (a) No public agency, including a state or local law enforcement agency, or state or local

33 provided if they occurred entirely in this state.

34 (c) Notwithstanding any other law or provision of this chapter to the contrary, arrest of a

1 person is prohibited if the arrest is related to criminal liability that is based on legally protected  
2 healthcare activity or aiding and assisting legally protected health care activity.

3 (d) This section shall not apply to:

1 associate, or employee of the physician is providing medical or healthcare services at a different  
2 hospital, hospital system, or on behalf of a health plan. Notwithstanding the previous sentence, a  
3 hospital may condition or otherwise limit or restrict staff privileges for reasons related to the

8 (b) This section does not prevent a hospital from entering into contracts with physicians to  
9 ensure physician availability and coverage at the hospital or to comply with regulatory requirements  
10 or quality of care standards established by the governing body of the hospital, if contracts,  
11 requirements or standards do not require that a physician join, participate in or contract with a  
12 physician-hospital organization or similar organization as a condition of the grant or continuation  
13 of medical staff membership or staff privileges at the hospital.

14 (c) This section does not prevent the governing body of a hospital from limiting the number  
15 of physicians granted medical staff membership or privileges at the hospital based on a medical

18 (d) A contract provision that violates this section shall be void and of no force and effect.

19 (e) Hospitals shall allow patients of their medical staff to be evaluated and educated by the

26 of an adverse action against a healthcare provider's license or clinical privileges or other  
27 disciplinary action by another state or healthcare institution that resulted from the healthcare  
28 provider's engagement in legally protected healthcare activity, as defined in § 23-100-3, or aiding  
29 and assisting with legally protected healthcare activity, as defined § 23-100-3, if the adverse action  
30 was based solely on a violation of the other state's law prohibiting such legally protected healthcare  
31 activity and related services, if that legally protected healthcare activity is consistent with the  
32 applicable professional standard of care and did not violate Rhode Island law.

33 SECTION 5. Section 5-37-9.2 of the General Laws in Chapter 5-37 entitled "Board of

5 to the public and that include a conspicuous statement that: "This profile contains certain  
6 information that may be used as a starting point in evaluating the physician. This profile should not  
7 be your sole basis for selecting a physician."

8                   (2) The following information shall be compiled by the board in accordance with state laws  
9 and board regulations and procedures and shall be included in physician profiles, subject to the

21                   (vi) A description of revocation or restriction of hospital privileges for reasons related to  
22 competence taken by the hospital's governing body or any other official of the hospital after  
23 procedural due process has been afforded, or the resignation from or nonrenewal of medical staff  
24 membership or the restriction of privileges at a hospital. Only cases that have occurred within the  
25 most recent ten (10) years, shall be disclosed by the board to the public; and

28 the most recent ten (10) years, and all settlements of medical malpractice claims in which a payment  
29 is made to a complaining party since September 1, 1988, or within the most recent ten (10) years.  
30 Dispositions of paid claims shall be reported in a minimum of three (3) graduated categories  
31 indicating the level of significance of the award or settlement. Information concerning paid medical  
32 malpractice claims shall be put in context by comparing an individual physician's medical  
33 malpractice judgments, awards, and settlements to the experience of other physicians licensed in  
34 Rhode Island who perform procedures and treat patients with a similar degree of risk. All judgment,

1 award, and settlement information reported shall be limited to amounts actually paid by or on behalf  
2 of the physician.

3 (3) Comparisons of malpractice payment data shall be accompanied by:

4 (i) An explanation of the fact that physicians treating certain patients and performing  
5 certain procedures are more likely to be the subject of litigation than others and that the comparison  
6 given is for physicians who perform procedures and treat patients with a similar degree of risk;

7 (ii) A statement that the report reflects data since September 1, 1988, or for the last ten (10)  
8 years and the recipient should take into account the number of years the physician has been in  
9 practice when considering the data;

10 (iii) An explanation that an incident, giving rise to a malpractice claim, may have occurred  
11 years before any payment was made due to the time lawsuits take to move through the legal system;

12 (iv) An explanation of the effect of treating high-risk patients on a physician's malpractice  
13 history; and

14 (v) An explanation that malpractice cases may be settled for reasons other than liability  
15 and that settlements are sometimes made by the insurer without the physician's consent.

16 (4) Information concerning all settlements shall be accompanied by the following  
17 statement: "Settlement of a claim may occur for a variety of reasons that do not necessarily reflect  
18 negatively on the professional competence or conduct of the physician. A payment in settlement of  
19 a medical malpractice action or claim should not be construed as creating a presumption that  
20 medical malpractice has occurred." Nothing in this section shall be construed to limit or prevent  
21 the board from providing further explanatory information regarding the significance of categories  
22 in which settlements are reported.

23 (5) Pending malpractice claims and actual amounts paid by or on behalf of a physician in  
24 connection with a malpractice judgment, award, or settlement shall not be disclosed by the board  
25 to the public. Nothing in this section shall be construed to prevent the board from investigating and  
26 disciplining a licensee on the basis of medical malpractice claims that are pending.

27 (6) The following information shall be reported to the board by the physician and shall be  
28 included in physician profiles, subject to the limitations and requirements specified in this  
29 subdivision:

3 (vi) Information regarding professional or community service activities and awards;

4 (vii) The location of the physician's primary practice setting; and

5 (viii) The identification of any language translating services that may be available at the  
6 physician's primary practice location; provided, that a statement is included in the profile indicating  
7 that these services may be temporary and that the physician's office should first be contacted to  
8 confirm the present availability of language translation.

9 (b) A physician may elect to have his or her profile omit certain information provided  
10 pursuant to subsections (a)(6)(iv) — (a)(6)(vi) of this section, concerning academic appointments  
11 and teaching responsibilities, publication in peer-reviewed journals, and professional and  
12 community service awards. In collecting information for these profiles and disseminating it, the  
13 board shall inform physicians that they may choose not to provide any information required

16 email address, or other personal contact information of the physician.

17 (d)(1) The board shall provide individual physicians with a copy of their profiles prior to  
18 initial release to the public and each time a physician's profile is modified or amended based on  
19 information not personally supplied to the board by the physician or not generated by the board

24 (3) If a dispute arises between a physician and the board regarding the accuracy of factual  
25 information in the physician's profile, the physician shall notify the board, in writing, of this  
26 dispute.

27 (4) If a physician does not notify the board of a dispute during the twenty-one-day (21)  
28 review period, the profile shall be released to the public and the physician will be deemed to have  
29 approved the profile and all information contained in the profile.

30 (5) If a physician notifies the board of a dispute in accordance with this subsection, the  
31 physician's profile shall be released to the public without the disputed information, but with a  
32 statement to the effect that information in the identified category is currently the subject of a dispute  
33 and is not available at this time.

34 (6) Within ten (10) calendar days after the board's receipt of notice of a dispute, the

1 physician and the board or its authorized representative shall in good faith enter into discussions,  
2 which may continue for up to thirty (30) days, to resolve the dispute. If the dispute is not resolved  
3 within thirty (30) days, the disputed information shall be included in the profile with a statement  
4 that this information is disputed by the physician.

5 ~~(d)~~(e) Each profile shall contain a statement specifying the date of its last modification,  
6 amendment, or update. If a physician has reviewed and approved or been deemed to have approved  
7 his or her profile in accordance with this subsection, the physician is responsible for the accuracy  
8 of the information contained in it. If a profile is released to the public without physician review as  
9 required by this subsection, then notwithstanding any immunity from liability granted by § 5-37-  
10 1.5 or § 23-1-32, the board or any state agency supplying physician information to the board is  
11 solely responsible for the accuracy of the information it generates or supplies and that is contained  
12 in physician profiles released to the public.

13 ~~(e)~~(f) In order to protect against the unauthorized use or disclosure of provider profiles by  
14 department of health employees with access to the data, the department of health shall apply its  
15 existing safeguards and procedures for protecting confidential information to physician profile  
16 information.

17 ~~(f)~~(g) For each profile provided to the public by the board, the board may charge no more  
18 than fifty cents (\$.50) per page or three dollars (\$3.00) per profile, whichever is greater.
