12 the General Laws in Chapter 46-23 entitled "Coastal Resources Management Council" are hereby  
13 amended to read as follows:

14 **46-23-1. Legislative findings.**

15 (a)(1) Under article 1, § 17 of the Rhode Island Constitution, the people shall continue to  
16 enjoy and freely exercise all the rights of fishery, and the privileges of the shore, to which they  
17 have been heretofore entitled under the charter and usages of this state, including, but not limited  
18 to, fishing from the shore, the gathering of seaweed, leaving the shore to swim in the sea and

1 passage along the shore; and they shall be secure in their rights to use and enjoyment of the natural  
2 resources of the state with due regard for the preservation of their values; and it is the duty of the  
3 general assembly to provide for the conservation of the air, land, water, plant, animal, mineral and  
4 other natural resources of the state, and to adopt all means necessary and proper by law to protect  
5 the natural environment of the people of the state by providing adequate resource planning for the  
6 control and regulation of the use of the natural resources of the state and for the preservation,  
7 regeneration, and restoration of the natural environment of the state.

8 (2) The general assembly recognizes and declares that the coastal resources of Rhode  
9 Island, a rich variety of natural, commercial, industrial, recreational, and aesthetic assets, are of  
10 immediate and potential value to the present and future development of this state; that unplanned  
11 or poorly planned development of this basic natural environment has already damaged or destroyed,  
12 or has the potential of damaging or destroying, the state's coastal resources, and has restricted the  
13 most efficient and beneficial utilization of these resources; that it shall be the policy of this state to  
14 preserve, protect, develop, and, where possible, restore the coastal resources of the state for this  
15 and succeeding generations through comprehensive and coordinated long range planning and  
16 management designed to produce the maximum benefit for society from these coastal resources;  
17 and that preservation and restoration of ecological systems shall be the primary guiding principle  
18 upon which environmental alteration of coastal resources will be measured, judged, and regulated.

19 (b)(1) That effective implementation of these policies is essential to the social and  
20 economic well-being of the people of Rhode Island because the sea and its adjacent lands are major  
21 sources of food and public recreation, because these resources are used by and for industry,  
22 transportation, waste disposal, and other purposes, and because the demands made on these  
23 resources are increasing in number, magnitude, and complexity; and that these policies are  
24 necessary to protect the public health, safety, and general welfare. Pursuant to 16 U.S.C. § 1452  
25 ("The Coastal Zone Management Act"), the general assembly hereby directs the ~~council~~ [department](#)  
26 [of coastal resources](#) (referred to as "~~CRMC~~" [the "department"](#)) to exercise effectively its  
27 responsibilities in the coastal zone through the development and implementation of management  
28 programs to achieve wise use of the land and water resources of the coastal zone.

29 (2) Furthermore, that implementation of these policies is necessary in order to secure the  
30 rights of the people of Rhode Island to the use and enjoyment of the natural resources of the state  
31 with due regard for the preservation of their values, and in order to allow the general assembly to  
32 fulfill its duty to provide for the conservation of the air, land, water, plant, animal, mineral, and  
33 other natural resources of the state, and to adopt all means necessary and proper by law to protect  
34 the natural environment of the people of the state by providing adequate resource planning for the

1 control and regulation of the use of the natural resources of the state and for the preservation,  
2 regeneration, and restoration of the natural environment of the state.

3 (c) That these policies can best be achieved through the creation of a ~~coastal resources~~  
4 ~~management council~~ [department of coastal resources](#) as the principal mechanism for management  
5 of the state's coastal resources.

6 (d) The general assembly recognizes and declares that maintenance dredging is required to  
7 remove natural silt accumulations; Rhode Island has not had a general maintenance dredging policy  
8 and programs for ports, port facilities, channels, harbors, public and private marinas and boating  
9 facilities, recreational facilities and habitat areas; other major coastal states have maintenance  
10 dredging policies and in-water maintenance dredge disposal sites; as a result of the lack of a general  
11 maintenance dredging policy and program and as a result there has been:

12 (1) A decrease in the depth of the Providence Channel from forty-four (44) feet in 1971 to  
13 twenty-four (24) feet in 1996;

14 (2) Navigational restrictions on ocean going vessels through the state's waterways and  
15 channels; and

16 (3) A decrease in the number of available slips and moorings at marinas throughout the  
17 state; and the lack of a maintenance dredging policy and programs have significant adverse  
18 environmental and economic effects on the state and therefore it is in the best interest of the state,  
19 the cities and towns of the state, and the citizens thereof for the state to have a general maintenance  
20 dredging policy and programs to resolve issues related to dredge maintenance and disposal and  
21 avoid future significant direct and indirect adverse impact on the environment and economy of the  
22 state.

23 (e) The [department of](#) coastal resources ~~management council~~ is hereby designated as the  
24 lead state agency for purposes of dredging in tidal waters and as such shall have the following  
25 duties and responsibilities:

26 (1) To coordinate the interest of the state with regard to dredging;

27 (2) To formulate and adopt a state policy with regard to dredging which integrates those  
28 interests;

29 (3) To cooperate with, negotiate, and to enter into agreements on behalf of the state with  
30 the federal government and with other public bodies and private parties with regard to dredging;

31 (4) To act as the initial and primary point of contact for all applications to the state for  
32 dredging projects in tidal waters;

33 (5) To develop, prepare, adopt pursuant to § 46-23-11, implement, and maintain a  
34 comprehensive plan for dredge material management; and

1 (6) To cooperate and coordinate with the departments of environmental management,  
2 transportation, administration, and health, and the economic development corporation in the  
3 conduct of these duties and responsibilities.

4 (f)(1) The legislature recognizes that under Article I, § 17, the submerged lands of the state  
5 are impressed with a public trust and that the state is responsible for the protection of the public's  
6 interest in these lands. The state maintains title in fee to all soil within its boundaries that lies below  
7 the high water mark, and it holds that land in trust for the use of the public. In benefiting the public,  
8 the state preserves certain public rights which include, but are not limited to, fishery, commerce,  
9 and navigation in these waters and the submerged lands that they cover.

10 (2) ~~Since~~ All the powers and duties previously vested in the coastal resources management  
11 council since its establishment in 1971, are hereby transferred to the department of coastal resources  
12 ("department"). ~~the CRMC~~ The department has ~~had~~ the authority to manage and plan for the  
13 preservation of the coastal resources of the state including, but not limited to, submerged lands.  
14 The legislature hereby declares that, in light of the unique size, scope, and overall potential impact  
15 upon the environment of large scale filling projects involving twenty-five (25) acres or more, any  
16 lease of tidal lands, or any license to use those lands, is subject to approval, disapproval, or  
17 conditional approval by the direct enactment of the general assembly by legislative action. The  
18 ~~CRMC~~ department shall review all requests for leases, licenses to use the land, and other authority  
19 to use the land made by any applicant prior to presentation of the request to the general assembly,  
20 and the ~~CRMC~~ department shall make recommendations on the request to the general assembly.  
21 With the exception of any and all projects to fill land of twenty-five (25) acres or more, the general  
22 assembly hereby recognizes and declares that the ~~CRMC~~ department is delegated the sole and  
23 exclusive authority for the leasing of submerged and filled lands and giving licenses for the use of  
24 that land. Accordingly, the ~~CRMC~~ department will develop, coordinate, and adopt a system for the  
25 leasing of submerged and filled lands, and licenses for the use of that land, and will ensure that all  
26 leases and licenses are consistent with the public trust. Pursuant thereto, the ~~CRMC~~ department  
27 shall impose a maximum fee of eighty thousand dollars (\$80,000) per annum for any transatlantic  
28 cable that makes landfall in Rhode Island. All such fees collected shall be deposited into the Bays,  
29 Rivers and Watersheds Fund, established pursuant to § 46-31-12.1, and shall be disbursed  
30 according to the purposes of that fund. Nothing contained in this subsection negates, repeals, or  
31 alters the provisions, processes, and requirements for the leasing of submerged land for the conduct  
32 of aquaculture as set out under chapter 10 of title 20. Therefore, nothing in this chapter shall be  
33 construed to limit or impair the authority of the state, or any duly established agency of the state,  
34 to regulate filling or dredging affecting tidal lands owned by the state or any other entity, and

1 nothing in this chapter shall be construed to limit or impair the obligation of the applicant to obtain  
2 all applicable regulatory approvals. Specifically, and without limiting the foregoing, nothing in this  
3 subsection negates, repeals, or alters the provisions, processes, and requirements for water quality  
4 certification contained in chapter 12 of this title.

5 (3) Definitions. As used in this chapter, the following words unless the context clearly  
6 requires otherwise, shall have the following meanings:

7 (i) "Department" means the department of coastal resources as established herein.

8 (ii) "Director" means the director of the department of coastal resources as established  
9 herein, or their duly authorized agent, unless stated otherwise.

11 man to be no longer subject to tidal action or beneath tidal waters.

12 ~~(ii)(iv)~~ "Tidal Lands" means those lands that are below the mean high water.

13 ~~(iii)(v)~~ "Mean high water" means a line of contour representing the 18.6 year average as  
14 determined by the metonic cycle and/or its equivalent as evidenced by the records, tidal datum, and  
15 methodology of the United States Coastal Geodetic Survey within the National Oceanic and  
16 Atmospheric Administration.

11 (VII) The ~~council~~ [department](#) shall administer its programs, regulations, and  
12 implementation activities in a manner consistent with the marine resources development plan.

13 (VIII) The marine resources development plan and any updates thereto shall be adopted as  
14 appropriate as elements of the state guide plan pursuant to § 42-11-10.

15 (B) Special area management plans.

16 (I) The ~~council~~ [department](#) shall adopt such special area management plans as deemed  
17 necessary and desirable to provide for the integration and coordination of the protection of natural  
18 resources, the promotion of reasonable coastal-dependent economic growth, and the improved  
19 protection of life and property in the specific areas designated ~~council~~ [by the department](#) as  
20 requiring such integrated planning and coordination.

21 (II) The integrated planning and coordination herein specified shall include, but not be  
22 limited to, federal agencies, state agencies, boards, commissions, and corporations, including  
23 specifically the commerce corporation, and cities and towns, shall utilize to the extent appropriate  
24 and feasible the capacities of entities of higher education, including Rhode Island Sea Grant, and  
25 shall provide for the participation of advocacy groups, community-based organizations, and private  
26 persons.

27 (III) The ~~council~~ [department](#) shall administer its programs, regulations, and  
28 implementation activities in a manner consistent with special area management plans.

29 (IV) Special area management plans and any updates thereto shall be adopted as  
30 appropriate as elements of the state guide plan pursuant to § 42-11-10.

31 (2) Implementation. (i) The ~~council~~ [department](#) is authorized to formulate policies and  
32 plans and to adopt regulations necessary to implement its various management programs. With  
33 respect to such policies and plans which relate to matters where the ~~coastal resources management~~  
34 ~~council~~ [department](#) and the department of environmental management have concurrent jurisdiction

1 and upon formulation of the plans and regulations, the ~~council~~ department shall, prior to adoption,  
2 submit the proposed plans or regulations to the director of the department of environmental  
3 management for ~~the director's~~ their review. The director of the department of environmental  
4 management shall review and submit comments to the ~~council~~ department within thirty (30) days  
5 of submission to the director of the department of environmental management by the ~~council~~  
6 department. The comments of the director of the department of environmental management shall  
7 include findings with regard to the consistency of the policies, plans and/or regulations with the  
8 requirements of laws administered by the department of environmental management. The ~~council~~  
9 director shall consider the ~~director's~~ director of the department of environmental management's  
10 comments prior to adoption of any such policies, plans or regulations and shall respond in writing  
11 to findings of the director of the department of environmental management with regard to the  
12 consistency of said policies, plans and/or regulations with the requirements of laws administered  
13 by the department of environmental management.

14 (ii)(A) The ~~council~~ department shall have exclusive jurisdiction below mean high water for  
15 all development, operations, and dredging, consistent with the requirements of chapter 6.1 of this  
16 title and except as necessary for the department of environmental management to exercise its  
17 powers and duties and to fulfill its responsibilities pursuant to §§ 42-17.1-2 and 42-17.1-24, and  
18 any person, firm, or governmental agency proposing any development or operation within, above,  
19 or beneath the tidal water below the mean high water mark, extending out to the extent of the state's  
20 jurisdiction in the territorial sea, shall be required to demonstrate that its proposal would not:

21 (I) Conflict with any resources management plan or program;

22 (II) Make any area unsuitable for any uses or activities to which it is allocated by a  
23 resources management plan or program adopted by the ~~council~~ department; or

24 (III) Significantly damage the environment of the coastal region.

25 (B) The ~~council~~ department shall be authorized to approve, modify, set conditions for, or  
26 reject any such proposal.

27 (iii) The authority of the ~~council~~ department over land areas (those areas above the mean  
28 high water mark) shall be limited to two hundred feet (200') from the coastal physiographic feature  
29 or to that necessary to carry out effective resources management programs. This shall be limited to  
30 the authority to approve, modify, set conditions for, or reject the design, location, construction,  
31 alteration, and operation of specified activities or land uses when these are related to a water area  
32 under the agency's jurisdiction, regardless of their actual location. The ~~council's~~ department's  
33 authority over these land uses and activities shall be limited to situations in which there is a  
34 reasonable probability of conflict with a plan or program for resources management or damage to

1 the coastal environment. These uses and activities are:

2 (A) Power generating over forty (40) megawatts and desalination plants.

3 (B) Chemical or petroleum processing, transfer, or storage.

4 (C) Minerals extraction.

5 (D) Shoreline protection facilities and physiographical features, and all directly associated  
6 contiguous areas which are necessary to preserve the integrity of the facility and/or features.

7 (E) Coastal wetlands and all directly associated contiguous areas which are necessary to  
8 preserve the integrity of the wetlands including any freshwater wetlands located in the vicinity of  
9 the coast. The actual determination of freshwater wetlands located in coastal vicinities and under  
10 the jurisdiction of the ~~coastal resources management council~~ department shall be designated on  
11 such maps that are agreed to in writing and made available for public use by the ~~coastal resources~~  
12 ~~management council~~ department and the ~~director~~, department of environmental management,  
13 within three (3) months of [August 6, 1996]. The ~~CRMC~~ department shall have exclusive  
14 jurisdiction over the wetlands areas described in this section notwithstanding any provision of  
15 chapter 1, title 2 or any other provision, except as provided in subsection (iv) of this section. ~~Within~~  
16 ~~six (6) months of [August 6, 1996] the council~~ The department in cooperation with the director  
17 shall develop and maintain rules and regulations for the management and protection of freshwater  
18 wetlands, affected by an aquaculture project, outside of those freshwater wetlands located in the  
19 vicinity of the coast and under the exclusive jurisdiction of the director of the department of  
20 environmental management. For the purpose of this chapter, a “*coastal wetland*” means any salt  
21 marsh bordering on the tidal waters of this state, whether or not the tidal waters reach the littoral  
22 areas through natural or artificial watercourses, and those uplands directly associated and  
23 contiguous thereto which are necessary to preserve the integrity of that marsh. Marshes shall  
24 include those areas upon which grow one or more of the following: smooth cordgrass (*spartina*  
25 *alterniflora*), salt meadow grass (*spartina patens*), spike grass (*distichlis spicata*), black rush (*juncus*  
26 *gerardi*), saltworts (*salicornia* spp.), sea lavender (*limonium carolinianum*), saltmarsh bulrushes  
27 (*scirpus* spp.), hightide bush (*iva frutescens*), tall reed (*phragmites communis*), tall cordgrass  
28 (*spartina pectinata*), broadleaf cattail (*typha latifolia*), narrowleaf cattail (*typha angustifolia*), spike  
29 rush (*eleocharis rostellata*), chairmaker’s rush (*scirpus americana*), creeping bentgrass (*agrostis*  
30 *palustris*), sweet grass (*hierochloe odorata*), and wild rye (*etlymus virginicus*).

31 (F) Sewage treatment and disposal and solid waste disposal facilities.

32 (G) Beneficial use, dewatering, and disposal of dredged material of marine origins, where  
33 such activities take place within two hundred feet (200') of mean high water or a coastal  
34 physiographic feature, or where there is a reasonable probability of conflict with a plan or program

1 for resources management or damage to the coastal environment.

2 (iv) Notwithstanding the provisions of subsections (ii) and (iii) above, the department of  
3 environmental management shall maintain jurisdiction over the administration of chapter 1, title 2,  
4 including permitting of freshwater wetlands alterations and enforcement, with respect to all  
5 agricultural activities undertaken by a farmer, as that term is defined in § 2-1-22(j), wherever  
6 located; provided, however, that with respect to activities located partially or completely within  
7 two hundred feet (200') of the coastal physiographic feature, the department [of environmental](#)  
8 [management](#) shall exercise jurisdiction in consultation with the ~~council~~ [department](#).

9 (3) Coordination. The ~~council~~ [department](#) has the following coordinating powers and  
10 duties:

11 (i) Functioning as a binding arbitrator in any matter of dispute involving both the resources  
12 of the state's coastal region and the interests of two (2) or more municipalities or state agencies.

13 (ii) Consulting and coordinating actions with local, state, regional, and federal agencies  
14 and private interests.

15 (iii) Conducting or sponsoring coastal research.

16 (iv) Advising the governor, the general assembly, and the public on coastal matters.

17 (v) Serving as the lead state agency and initial and primary point of contact for dredging  
18 activities in tidal waters and in that capacity, integrating and coordinating the plans and policies of  
19 other state agencies as they pertain to dredging in order to develop comprehensive programs for  
20 dredging as required by subparagraph (1)(ii)(H) of this section and chapter 6.1 of this title. The  
21 Rhode Island resource recovery corporation prior to purchasing cover material for the state landfill  
22 shall first contact the ~~CRMC~~ [department](#) to see if there is a source of suitable dredged material  
23 available which shall be used in place of the purchase cover material. Other state agencies engaged  
24 in the process of dump closures shall also contact the ~~CRMC~~ [department](#) to see if there is a source  
25 of suitable dredged material available, which shall be used in place of the purchase cover material.  
26 In addition, cities and towns may contact the ~~CRMC~~ [department](#) prior to closing city or town  
27 controlled dump sites to see if there is a source of suitable dredge material available, which may be  
28 used in place of the purchase cover material.

29 (vi) Acting as the state's representative to all bodies public and private on all coastal and  
30 aquaculture related matters.

31 (4) Operations. The ~~council~~ [department](#) is authorized to exercise the following operating  
32 functions, which are essential to management of coastal resources:

33 (i) Issue, modify, or deny permits for any work in, above, or beneath the areas under its  
34 jurisdiction, including conduct of any form of aquaculture.

1 (ii) Issue, modify, or deny permits for dredging, filling, or any other physical alteration of  
2 coastal wetlands and all directly related contiguous areas which are necessary to preserve the  
3 integrity of the wetlands, including, but not limited to, the transportation and disposal of dredge  
4 materials in the tidal waters.

5 (iii) Grant licenses, permits, and easements for the use of coastal resources which are held  
6 in trust by the state for all its citizens, and impose fees for private use of these resources.

7 (iv) Determining the need for and establishing pierhead, bulkhead, and harbor lines.

8 (v) Enforcing and implementing riparian rights in the tidal waters after judicial decisions.

9 (vi) The ~~council~~ [department](#) may require an owner or operator of a commercial wharf or  
10 pier of a marine commercial facility, as defined in 300.3 of the Rhode Island coastal resources  
11 management program, but not including those facilities defined in 300.4 of the Rhode Island coastal  
12 resources management program, and which is capable of offloading cargo, and is or will be subject  
13 to a new use or a significant intensification of an existing use, to demonstrate that the commercial  
14 wharf or pier is fit for that purpose. For the purposes of this subsection, a “*commercial wharf or*  
15 *pier*” means a pier, bulkhead, wharf, docking facility, or underwater utilities. The ~~council~~  
16 [department](#) may order said owner or operator to provide an engineering certification to the ~~council's~~  
17 [department's](#) satisfaction that the commercial wharf or pier is fit for the new use or intensification  
18 of an existing use. If the ~~council~~ [department](#) determines that the commercial wharf or pier is not fit,  
19 it may order the owner or operator to undertake the necessary work to make the commercial wharf  
20 or pier safe, within a reasonable time frame. If the ~~council~~ [department](#) determines that the  
21 commercial wharf or pier, because of its condition, is an immediate threat to public health and  
22 safety it may order the commercial wharf or pier closed until the necessary work to make the  
23 commercial wharf or pier safe has been performed and approved by the ~~council~~ [department](#). All  
24 work performed must conform to the ~~council's~~ [department's](#) management program. The ~~council~~  
25 [department](#) is also given the authority to develop regulations to carry out this provision and to  
26 impose administrative penalties of five thousand dollars (\$5,000) per day up to a maximum of  
27 twenty thousand dollars (\$20,000) consistent with § 46-23-7.1 where there has been a violation of  
28 the orders under this provision.

29 (5) Rights-of-way.(i) The ~~council~~ [department](#) is responsible for the designation of all public  
30 rights-of-way to the tidal water areas of the state, and shall carry on a continuing discovery of  
31 appropriate public rights-of-way to the tidal water areas of the state.

32 (ii) The ~~council~~ [department](#) shall maintain a complete file of all official documents relating  
33 to the legal status of all public rights-of-way to the tidal water areas of the state.

34 (iii)(A) The ~~council~~ [department](#) has the power to designate for acquisition and

1 development, and posting, and all other functions of any other department for tidal rights-of-way  
2 and land for tidal rights-of-way, parking facilities, and other council related purposes.

3 (B) Further, the ~~council~~ [department](#) has the power to develop and prescribe a standard sign  
4 to be used by the cities and towns to mark designated rights-of-way.

5 (iv) In conjunction with this subdivision, every state department controlling state-owned  
6 land close to or adjacent to discovered rights-of-way is authorized to set out the land, or so much  
7 of the land that may be deemed necessary for public parking.

8 (v) No use of land for public parking shall conflict with existing or intended use of the land,  
9 and no improvement shall be undertaken by any state agency until detailed plans have been  
10 submitted to and approved by the governing body of the local municipality.

11 (vi) In designating rights-of-way, the ~~council~~ [department](#) shall consider the following  
12 matters in making its designation:

13 (A) Land evidence records;

14 (B) The exercise of domain over the parcel such as maintenance, construction, or upkeep;

15 (C) The payment of taxes;

16 (D) The creation of a dedication;

17 (E) Public use;

18 (F) Any other public record or historical evidence such as maps and street indexes;

19 (G) Other evidence as set out in § 42-35-10.

20 (vii) A determination by the ~~council~~ [department](#) that a parcel is a right-of-way shall be  
21 decided by substantial evidence.

22 (viii) The ~~council~~ [department](#) shall be notified whenever by the judgment of the governing  
23 body of a coastal municipality, a public right-of-way to tidal water areas located in such  
24 municipality has ceased to be useful to the public, and such governing body proposes an order of  
25 abandonment of such public right-of-way. Said notice shall be given not less than sixty (60) days  
26 prior to the date of such abandonment.

27 (6) Pre-existing residential boating facilities.(i) The ~~council~~ [department](#) is hereby  
28 authorized and empowered to issue assent for pre-existing residential boating facilities constructed  
29 prior to January 1, 1985. These assents may be issued for pre-existing residential boating facilities,  
30 even though such facilities do not meet current standards and policies of the ~~council~~ [department](#);  
31 provided, however, that the ~~council~~ [department](#) finds that such facilities do not pose any significant  
32 risk to the coastal resources of the state of Rhode Island and do not endanger human safety.

33 (ii) In addition to the above criteria, the applicant shall provide clear and convincing  
34 evidence that:

1 (A) The facility existed in substantially the same configuration as it now exists prior to  
2 January 1, 1985;

3 (B) The facility is presently intact and functional; and

4 (C) The facility presents no significant threat to the coastal resources of the state of Rhode  
5 Island or human safety.

6 (iii) The applicant, to be eligible for this provision, shall apply no later than January 31,  
7 1999.

8 (iv) The ~~council~~ [department](#) is directed to develop rules and regulations necessary to  
9 implement this subdivision.

10 (v) It is the specific intent of this subsection to require that all pre-existing residential  
11 boating facilities constructed on January 1, 1985, or thereafter conform to this chapter and the plans,  
12 rules and regulations of the ~~council~~ [department](#).

13 (7) Lease of filled lands which were formerly tidal lands to riparian or littoral owners.(i)  
14 Any littoral or riparian owner in this state who desires to obtain a lease from the state of Rhode  
15 Island of any filled lands adjacent to his or her upland shall apply to the ~~council~~ [department](#), which  
16 may make the lease. Any littoral or riparian owner who wishes to obtain a lease of filled lands must  
17 obtain pre-approval, in the form of an assent, from the ~~council~~ [department](#). Any lease granted by  
18 the ~~council~~ [department](#) shall continue the public's interest in the filled lands including, but not  
19 limited to, the rights of navigation, fishery, and commerce. The public trust in the lands shall  
20 continue and run concurrently with the leasing of the lands by the state to private individuals,  
21 corporations, or municipalities. Upon the granting of a lease by the ~~council~~ [department](#), those rights  
22 consistent with the public trust and secured by the lease shall vest in the lessee. The council may  
23 approve a lease of filled lands for an initial term of up to fifty (50) years, with, or without, a single  
24 option to renew for an additional term of up to fifty (50) years.

25 (ii) The lessor of the lease, at any time, for cause, may by express act cancel and annul any  
26 lease previously made to the riparian owner when it determines that the use of the lands is violating  
27 the terms of the lease or is inconsistent with the public trust, and upon cancellation the lands, and  
28 rights in the land so leased, shall revert to the state.

29 (8) "*Marinas*" as defined in the coastal resources management program in effect as of June  
30 1, 1997, are deemed to be one of the uses consistent with the public trust. Subdivision (7) is not  
31 applicable to:

32 (i) Any riparian owner on tidal waters in this state (and any successor in interest to the  
33 owner) which has an assent issued by the ~~council~~ [department](#) to use any land under water in front  
34 of his or her lands as a marina, which assent was in effect on June 1, 1997;

1 (ii) Any alteration, expansion, or other activity at a marina (and any successor in interest)  
2 which has an assent issued by the council, which assent was in effect on June 1, 1997; and

3 (iii) Any renewal of assent to a marina (or successor in interest), which assent was issued  
4 by the council and in effect on June 1, 1997.

5 (9) “*Recreational boating facilities*” including marinas, launching ramps, and recreational  
6 mooring areas, as defined by and properly permitted by the ~~council~~ [department](#), are deemed to be  
7 one of the uses consistent with the public trust. Subdivision (7) is not applicable to:

8 (i) Any riparian owner on tidal waters in this state (and any successor in interest to the  
9 owner) which has an assent issued by the council to use any land under water in front of his or her  
10 lands as a recreational boating facility; any alteration, expansion or other activity at a recreational  
11 boating facility (and any successor in interest) which has an assent issued by the council, which  
12 assent was in effect as of June 1, 1997; and

13 (ii) Any renewal of assent to a recreational boating facility (or successor in interest), which  
14 assent was issued by the council and in effect on June 1, 1997.

15 **46-23-6.1. Newport “cliff walk” — Public right-of-way — Legal studies.**

16 The ~~council~~ [department](#) is hereby directed to carry out any and all legal studies which it  
17 shall deem necessary in order to designate the Newport “cliff walk”, so called, as a public right-of-  
18 way pursuant to § 46-23-6(5).

19 **46-23-6.2. Abandonment of rights-of-way.**

20 No city or town shall abandon a right-of-way designated as such by the ~~council~~ [department](#)  
21 unless the ~~council~~ [department](#) approved the abandonment.

22 **46-23-7. Violations.**

23 (a)(1) In any instances wherein there is a violation of the coastal resources management  
24 program, or a violation of regulations or decisions of the ~~council~~ [department](#), the ~~commissioner of~~  
25 ~~coastal resources management~~ [director](#) shall have the power to order any person to cease and desist  
26 or to remedy any violation of any provisions of this chapter, or any rule, regulation, assent, order,  
27 or decision of the ~~council~~ [department](#) whenever the ~~commissioner of coastal resources management~~  
28 [director](#) shall have reasonable grounds to believe that such violation has occurred.

29 (2) ~~Council~~ [Department](#) staff, conservation officers within the department of  
30 environmental management, and state and municipal police shall be empowered to issue written  
31 cease and desist orders in any instance where activity is being conducted which constitutes a  
32 violation of any provisions of this chapter, or any rule, regulation, assent, order, or decision of the  
33 ~~council~~ [department](#).

34 (3) Conservation officers within the department of environmental management, ~~council~~

1 [department](#) staff, and state and municipal police shall have authority to apply to a court of  
2 competent jurisdiction for a warrant to enter on private land to investigate possible violations of  
3 this chapter; provided, that they have reasonable grounds to believe that a violation has been  
4 committed, is being committed, or is about to be committed.

5 (b) Any order or notice issued pursuant to subsection (a) shall be eligible for recordation  
6 under chapter 13 of title 34, and shall be recorded in the land evidence records in the city/town  
7 wherein the property subject to the order is located, and any subsequent transferee of the property  
8 shall be responsible for complying with the requirements of the order and notice.

9 (c) The ~~coastal resources management council~~ [department](#) shall discharge of record any

22 to enter into any recognizance or to give surety for cost, may institute proceedings in the name of  
23 the state. It shall be the duty of the attorney general and/or the solicitor of the city or town in which  
24 the alleged violation has occurred to conduct the prosecution of all the proceedings. The  
25 ~~chairperson~~ [director](#) may delegate his or her authority to bring prosecution by complaint and  
26 warrant to any law enforcement officials authorized by law to bring complaints for the issuance of

22 perfected against the subject property.

23 **46-23-25. Issuance of beach vehicle registration permits.**

24 (a) The ~~coastal resources management council~~ [department](#) may issue beach vehicle

8 (a) The public's rights and privileges of the shore are established by Article I, Sections 16  
9 and 17 of the Rhode Island Constitution.

10 (b) For purposes of this chapter, the "recognizable high tide line" means a line or mark left  
11 upon tidal flats, beaches, or along shore objects that indicates the intersection of the land with the  
12 water's surface level at the maximum height reached by a rising tide. The recognizable high tide  
13 line may be determined by a line of seaweed, oil or scum along shore objects, a more or less  
14 continuous deposit of fine shell or debris on the foreshore or berm, other physical markings or  
15 characteristics, or other suitable means that delineate the general height reached by the water's  
16 surface level at a rising tide. If there is more than one line of seaweed, oil, scum, fine shell, or  
17 debris, then the recognizable high tide line means the most seaward line. In the absence of residue  
18 seaweed or other evidence, the recognizable high tide line means the wet line on a sandy or rocky  
19 beach. The line encompasses the water's surface level at spring high tides and other high tides that  
20 occur with periodic frequency, but does not include the water's surface level at storm surges in  
21 which there is a departure from the normal or predicted reach of the water's surface level due to  
22 the piling up of water against a coast by strong winds, such as those accompanying a hurricane or  
23 other intense storms.

24 (c) Notwithstanding any provision of the general laws to the contrary, the public's rights  
25 and privileges of the shore may be exercised, where shore exists, on wet sand or dry sand or rocky  
26 beach, up to ten feet (10') landward of the recognizable high tide line; provided, however, that the  
27 public's rights and privileges of the shore shall not be afforded where no passable shore exists, nor  
28 on land above the vegetation line, or on lawns, rocky cliffs, sea walls, or other legally constructed  
29 shoreline infrastructure. Further, no entitlement is hereby created for the public to use amenities  
30 privately owned by other persons or entities, including, but not limited to: cabanas, decks, and  
31 beach chairs.

32 (d) Any landowner whose property abuts the shore shall, with respect to the public's  
33 exercise of rights and privileges of the shore as defined in this chapter, be afforded the liability  
34 limitations pursuant to chapter 6 of title 32.

1 (e) The ~~coastal resources management council (CRMC)~~ department in collaboration with  
2 the department of environmental management (DEM), shall develop and disseminate information  
3 to educate the public and property owners about the rights set out in this section.

4 (f) The ~~CRMC~~ department in collaboration with the DEM, and the attorney general, shall  
5 determine appropriate language and signage details for use at shoreline locations.
