26 In lieu of any appointment of a member of the legislature to this commission, the
27 appointing authority may appoint a member of the general public to serve in lieu of a legislator,
28 provided that the public member is a resident of the State of Rhode Island.

29 The purpose of said commission shall be to make a comprehensive study and make
30 recommendations regarding the impact of significant patient liability provisions within health
31 plans (to include coinsurance and deductibles), and individuals' and employers' desire for choice
32 in the cost of coverage resulting from different levels of patient liability and their relationship to a
33 person's access to healthcare, health insurance, personal financial well-being and the financial
34 condition of healthcare providers. In studying this issue, the commission is encouraged to:

1 (1) Examine trends, current policies, and available data pertaining to the growth in
2 membership in health insurance plans containing significant patient liability provisions;

3 (2) Examine the impact upon the growth of coverage under the Affordable Care Act
4 (ACA) of insurance plans with significant enrollee liability provisions and the coverage
5 alternatives to such plans;

6 (3) Identify the volume of healthcare services rendered to patients with such coverage
7 provisions and how much of the patient liability is collected and remains uncollected, and the
8 time frames for billing and collection;

9 (4) Identify the barriers to access to necessary primary and specialty health care related to
10 insurance coverage and potential financial barriers of patient liability provisions in coverage;

11 (5) Examine the degree to which health insurers, payers and employers evaluate the
12 ability of potential members to afford the designated cost share prior to providing a plan that
13 includes them, while similarly considering the impact of cost sharing on premiums, how that
14 affordability of premiums improves access to health insurance and the degree to which coverage,
15 even with cost sharing, is preferable to an individual or employee being uninsured;

16 (6) Survey the use of software applications that enable real-time determinations of a
17 patient's deductible status and examine the feasibility of an application to be used by health care
18 providers for utilization at the time care is provided; and

19 (7) Examine the implication and feasibility of policies and legislation that would (i)
20 establish a baseline means test for affordability of significant patient financial obligations prior to
21 their purchase, recognizing that coverage with that cost sharing is preferable to being uninsured,
22 (ii) educate Rhode Islanders about the availability of Medicaid or other state assistance, premium
23 subsidies (advance premium tax credits) and cost sharing subsidies under the ACA, and (iii)
24 educate patients about their obligation to satisfy their financial liability to their healthcare
25 provider.

26 Forthwith upon passage of the resolution, the members of the commission shall meet at
27 the call of the Speaker of the House and the President of the Senate. The commission shall have
28 the authority to organize and form subcommittees, when deemed appropriate by a majority of the
29 members.

30 Vacancies in said commission shall be filled in the same manner as the original
31 appointment.

32 The membership of said commission shall receive no compensation for their services.

33 All departments and agencies of the state shall furnish such advice and information,
34 documentary and otherwise, to said commission and its agents as is deemed necessary or

1 desirable by the commission to facilitate the purposes of this resolution.

2 The Joint Committee on Legislative Services is hereby authorized and directed to provide
3 suitable quarters for said commission; and be it further

4 RESOLVED, That the Commission shall report its findings and recommendations,
5 including any proposed legislation, to the Governor, the Commissioner of the Office of Health
6 Insurance Commissioner, and the General Assembly no later than February 1, 2015, and said
