STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2018

—————  
A N A C T

RELATING TO HUMAN SERVICES - MEDICAL ASSISTANCE

Introduced By: Representatives McNamara, Diaz, Ackerman, Carson, and O'Brien

Date Introduced: February 01, 2018

Referred To: House Finance

It is enacted by the General Assembly as follows:

1           SECTION 1. Section 40-8-18 of the General Laws in Chapter 40-8 entitled "Medical  
2 Assistance" is hereby amended to read as follows:

3           **40-8-18. Local education agencies as EPSDT providers.**

4           (a) It is the intent of this section to provide reimbursement for early and periodic  
5 screening, diagnosis and treatment (EPSDT) services through local education agencies for  
6 children who are eligible for medical assistance. A local education agency's participation as an  
7 EPSDT provider is voluntary. Further, it is the intent that collaboration among the department of  
8 human services (DHS), the department of elementary and secondary education and local  
9 education agencies (LEAs) will result in state and local funds being used to maximize federal  
10 funding for such EPSDT services.

11           (b) The services available to eligible children under Title XIX of the Social Security Act  
12 for early and periodic screening, diagnosis and treatment (EPSDT) may be provided by local  
13 education agencies.

14           (c) (1) Voluntary participation as an EPSDT provider shall require the local education  
15 agency to provide the state match to obtain federal financial participation for EPSDT services and  
16 associated administrative costs by certifying to the department of human services that sufficient  
17 qualifying local funds (local certified match) have been expended for such services and  
18 administrative costs; provided, however, that a local education agency shall not be required to  
19 provide local certified match for those EPSDT services for which the department of human

1 services, or another state agency, agrees to provide the state match to obtain federal financial  
2 participation for EPSDT services.

3 (2) The local certified match shall be established in the local education agency pursuant  
4 to federal Title XIX provisions. Failure of the local education agency to provide the local match  
5 shall result in the penalties described in subsection (f).

6 (3) The department of human services shall pay the local education agency from the  
7 federal matching funds for EPSDT services pursuant to fee schedules established by rules and  
8 regulations of the department of human services, and for associated administrative costs pursuant  
9 to administrative cost reimbursement methodologies to be approved by the federal government,  
10 upon certification of the local match by the local education agency in accordance with federal  
11 Title XIX provisions. Payments made to the local education agency pursuant to this section shall  
12 be used solely for educational purposes and shall not be made available to local communities for  
13 purposes other than education. The local fiscal effort to support education referred to in  
14 subsection (d) shall not be reduced in response to the availability of these federal financial  
15 participation funds to the local education agency. These federal financial participation funds must  
16 supplement, not supplant, local maintained fiscal effort to support education.

17 (4) For the purposes of this subsection, the term "local education agency" shall include  
18 any city, town, state or regional school district or the school for the deaf or the William M.  
19 Davies, Jr. career and technical high school, the Metropolitan Career and Technical Center, any  
20 public charter school established pursuant to chapter 77 of title 16 of the general laws, any  
21 educational collaborative established pursuant to chapter 3.1 of title 16 of the general laws, or the  
22 department of children, youth, and families (DCYF).

23 (d) (1) Each community shall maintain local fiscal effort for education. For the purpose  
24 of this subsection, to "maintain local fiscal effort" means each community shall contribute local  
25 funds to its school committee in an amount not less than its local contribution for schools in the  
26 previous fiscal year.

27 (2) Further, state support for education shall not be reduced from the prior fiscal year in  
28 response to local community participation in the EPSDT program.

29 (e) The department of human services and the department of elementary and secondary  
30 education shall effect the interagency transfers necessary to comply with the provisions of this  
31 section. The department of elementary and secondary education and the department of human  
32 services are authorized to promulgate any and all regulations necessary to implement this section.  
33 All local school agencies becoming EPSDT providers shall be required to comply with all  
34 provisions of Title XIX, 42 U.S.C. § 1396 et seq., of the Social Security Act relative to

1 responsibilities of a Medicaid provider.

2 (f) Failure of the local education agency to establish a local certified match under this law  
3 sufficient to support its claims for reimbursement of EPSDT services and associated  
4 administrative costs will result in the withholding of state funds due that community in  
5 accordance with § 16-7-31 in an amount equal to the federal financial participation funds denied  
6 by the federal government as a result thereof. The withheld funds will be transferred to the  
7 department of human services.

8 (g) The department of human services, with the aid of the department of education, shall  
9 determine which health care related services are eligible for federal Medicaid reimbursement for  
10 health related services provided by local education agencies to children eligible for early periodic  
11 screening diagnosis and treatment. The department of human services, with the assistance of the  
12 department of administration, shall also develop the following resources in furtherance of the goal  
13 of recouping the maximum amount of administrative costs associated with such services:

14 (1) A time study training manual which outlines how to complete a time study by school  
15 personnel to enhance recovery of administrative costs; and

16 (2) A claiming manual, which outlines the financial information and claim submission  
17 requirements that are needed to complete the claim.

18 (h) Services provided by school social workers and certified school psychologists who  
19 are certified by the department of elementary and secondary education shall be included as health  
20 care related services eligible for federal Medicaid reimbursement pursuant to this section. These  
21 school social workers and certified school psychologists shall be eligible to participate in time  
22 studies as local education agency employees and contractors.

23 SECTION 2. This act shall take effect upon passage.
