Since quasi-public 9 corporations manage significant public resources, and in order to comply with the intent of § 42-10 155-2, quasi-public corporations accountability and transparency act, all Rhode Island quasipublic corporations and agencies should make their decisions and budgets especially transparent 11 12 and open to public scrutiny. 13 (b) The goals of public policy and transparency dictate that funds or monies collected by 14 quasi-public corporations or quasi-public agencies shall remain with the entities for use by the entities in order to carry out their designated government functions and services and shall not be 15 subject to transfer or reallocation by order of or request by the governor or the general assembly 16 to the state's general fund or to another state agency, department, or quasi-public state agency or 17 18 corporation. In order to ensure the furtherance of the objectives of the quasi-public entities, at no
