24 **42-17.11-3. Permit requirements in an environmental justice focus area.**

25 (a) The department and the council shall not approve any permitted activity in an
26 environmental justice focus area or within one-half (1/2) mile of an environmental justice focus
27 area, unless the permit applicant first:

28 (1) Prepares a report assessing the environmental impact of the proposed permitted activity,
29 including any cumulative impacts on the environmental justice focus area, any adverse
30 environmental effects that cannot be avoided should the permit be granted, and the public health
31 impact on the environmental justice focus area of the proposed permitted activity;

32 (2) Transmits the report required to be prepared pursuant to subsection (a)(1) of this section
33 at least thirty (30) days in advance of the public hearing required pursuant to subsection (a)(3) of
34 this section to the department or council, the governing body and the clerk of the municipality in

1 which the environmental justice focus area is located, and the designated representative of the
2 environmental justice focus area. The report shall be made available to the public at least thirty (30)
3 days prior to the public hearing required pursuant to subsection (a)(3) of this section; and

4 (3) Organizes and conducts a public hearing that provides for the fair treatment and
5 meaningful involvement of the public. The permit applicant shall publish public notices of the
6 hearing in a newspaper with statewide circulation and through the department's website and through
7 a newspaper, newsletters and other media that specifically focus on the community near the site
8 not less than twenty-one (21) days prior to the hearing. When appropriate, the notices shall be
9 published in Spanish, Portuguese or other languages. At least fourteen (14) days prior to the date
10 set for such hearing, a copy of the public notice shall be sent to the department or the council, the
11 governing body and the clerk of the municipality in which the environmental justice focus area is
12 located, and the designated representative of the environmental justice focus area. At the public
13 hearing, the permit applicant shall provide clear, accurate, and complete information about the
14 proposed permitted activity and the potential environmental and health impacts of the permitted
15 activity. Following the public hearing, the director or designee shall consider the testimony
16 presented and evaluate any revisions or conditions to the permit that may be necessary to reduce
17 the adverse impact to the public health or to the environment in the environmental justice focus
18 area.

19 (b) The department or council shall not issue a decision on the permit application until at
20 least forty-five (45) days after the public hearing held pursuant to this section. Notwithstanding the
21 provisions of any other law, or rule or regulation adopted pursuant thereto, to the contrary, the
22 department or council may deny a permit application in an environmental justice focus area upon
23 a finding that the approval of the permit would, together with the cumulative impacts posed by the
24 existing conditions, including conditions resulting from already permitted activities, in the
25 environmental justice focus area, constitute an unreasonable risk to the health of the residents of
26 the environmental justice focus area or to the environment in the environmental justice focus area.

27 (c) The department or council, when evaluating an application for a permit pursuant to this
28 section, shall assess the community support for the proposed permitted activity, as demonstrated
29 through the public hearing conducted pursuant to subsection (a) of this section, letters of support
30 for, or opposition to, the proposed permitted activity, and any ordinance or resolution adopted by
31 the governing body of the municipality in which the environmental justice focus area is located.
32 The department shall consider community support, or the lack thereof, in its decision to grant or
33 deny a permit.

34 (d) If a permit applicant is applying for more than one permit for a proposed permitted

1 activity, the permit applicant shall only be required to comply with the provisions of this section
2 once for the same facility in the same location, unless the department, in its discretion, determines
3 that more than one public hearing is necessary due to the complexity of the proposed permitted
4 activity. Nothing in this section shall be construed to limit the authority of the department to hold
5 or require additional public hearings.

6 **42-17.11-4. Implementation.**

7 (a) The department and council may adopt rules and regulations to implement the
8 provisions of this chapter.

9 (b) The department may issue guidance on how to evaluate cumulative impacts pursuant
10 to § 42-17.11-3(a)(1). The department shall publish the guidance document on its website.

11 SECTION 2. This act shall take effect upon passage.

EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF

A N A C T

RELATING TO STATE AFFAIRS AND GOVERNMENT -- ENVIRONMENTAL JUSTICE
ACT

1 This act would require the division of statewide planning to create a list of environmental
2 justice areas. Once the list of environmental justice areas is adopted, the act would establish
3 requirements which would have to be met by an applicant prior to the division of statewide planning
4 or the coastal resources management council issuing permits for an activity that would have an
5 environmental impact on or would increase the cumulative impacts on an environmental justice
6 area.

7 This act would take effect upon passage.
