# STATE OF RHODE ISLAND

## IN GENERAL ASSEMBLY

## JANUARY SESSION, A.D. 2022

## AN ACT

## RELATING TO HEALTH AND SAFETY -- OPIOID ALTERNATIVES

Introduced By: Senators Valverde, DiMario, Euer, and Miller

Date Introduced: March 10, 2022

Referred To: Senate Health & Human Services

It is enacted by the General Assembly as follows:

1       SECTION 1. Legislative findings. The general assembly finds that:         2       Every competent adult has the fundamental right to self-determination regarding dec         3       pertaining to his or her own health, including the right to refuse an opioid drug listed as a Scl         4       II controlled substance pursuant to the provisions of § 21-28-2.02.         5       SECTION 2. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is h         6       amended by adding thereto the following chapter:         7       CHAPTER 1.12         8       OPIOID ALTERNATIVES         9       23-1.12-1. Educational pamphlet.         10       (a) The department shall develop and publish on its website an educational pair         11       regarding the use of opioid alternatives for the treatment of pain. The pamphlet shall, at a mini         11       include:         12       (1) Information on available opioid alternatives for the treatment of pain, including         14       opioid medicinal drugs or drug products and nonpharmacological therapies.         15       (2) The advantages and disadvantages of the use of opioid alternatives.         16       23-1.12-2. Rules and regulations.         17       The department may adopt rules and regulations requiring health care practitioners for
<ul> <li>pertaining to his or her own health, including the right to refuse an opioid drug listed as a Sci II controlled substance pursuant to the provisions of § 21-28-2.02.</li> <li>SECTION 2. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is 1 amended by adding thereto the following chapter:</li> <li><u>CHAPTER 1.12</u></li> <li><u>OPIOID ALTERNATIVES</u></li> <li><u>23-1.12-1. Educational pamphlet.</u></li> <li>(a) The department shall develop and publish on its website an educational part regarding the use of opioid alternatives for the treatment of pain. The pamphlet shall, at a mini include:</li> <li>(1) Information on available opioid alternatives for the treatment of pain, including opioid medicinal drugs or drug products and nonpharmacological therapies.</li> <li>(2) The advantages and disadvantages of the use of opioid alternatives.</li> <li><u>23-1.12-2. Rules and regulations.</u></li> <li>The department may adopt rules and regulations requiring health care practitioners of the treatment of pain in the care practitioners of the treatment of pain in the part of the treatment may adopt rules and regulations requiring health care practitioners of the treatment may adopt rules and regulations requiring health care practitioners of the treatment may adopt rules and regulations.</li> </ul>
<ul> <li>II controlled substance pursuant to the provisions of § 21-28-2.02.</li> <li>SECTION 2. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is hamended by adding thereto the following chapter:</li> <li>CHAPTER 1.12</li> <li>OPIOID ALTERNATIVES</li> <li>23-1.12-1. Educational pamphlet.</li> <li>(a) The department shall develop and publish on its website an educational pamphlet shall, at a mini include:</li> <li>(1) Information on available opioid alternatives for the treatment of pain, including opioid medicinal drugs or drug products and nonpharmacological therapies.</li> <li>(2) The advantages and disadvantages of the use of opioid alternatives.</li> <li>23-1.12-2. Rules and regulations.</li> <li>The department may adopt rules and regulations requiring health care practitioners of the treatment of pain in the part of the treatment may adopt rules and regulations.</li> </ul>
5       SECTION 2. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is H         6       amended by adding thereto the following chapter:         7       CHAPTER 1.12         8       OPIOID ALTERNATIVES         9       23-1.12-1. Educational pamphlet.         10       (a) The department shall develop and publish on its website an educational pam         11       regarding the use of opioid alternatives for the treatment of pain. The pamphlet shall, at a mini         12       include:         13       (1) Information on available opioid alternatives for the treatment of pain, including         opioid medicinal drugs or drug products and nonpharmacological therapies.         15       (2) The advantages and disadvantages of the use of opioid alternatives.         16       23-1.12-2. Rules and regulations.         17       The department may adopt rules and regulations requiring health care practitioners to
<ul> <li>amended by adding thereto the following chapter:</li> <li><u>CHAPTER 1.12</u></li> <li><u>OPIOID ALTERNATIVES</u></li> <li><u>23-1.12-1. Educational pamphlet.</u></li> <li>(a) The department shall develop and publish on its website an educational part regarding the use of opioid alternatives for the treatment of pain. The pamphlet shall, at a minimizer include:</li> <li>(1) Information on available opioid alternatives for the treatment of pain, including opioid medicinal drugs or drug products and nonpharmacological therapies.</li> <li>(2) The advantages and disadvantages of the use of opioid alternatives.</li> <li><u>23-1.12-2. Rules and regulations.</u></li> <li>The department may adopt rules and regulations requiring health care practitioners for the treatment of pain in the partment may adopt rules and regulations.</li> </ul>
7       CHAPTER 1.12         8       OPIOID ALTERNATIVES         9       23-1.12-1. Educational pamphlet.         10       (a) The department shall develop and publish on its website an educational part         11       regarding the use of opioid alternatives for the treatment of pain. The pamphlet shall, at a minimal         11       include:         13       (1) Information on available opioid alternatives for the treatment of pain, including         14       opioid medicinal drugs or drug products and nonpharmacological therapies.         15       (2) The advantages and disadvantages of the use of opioid alternatives.         16       23-1.12-2. Rules and regulations.         17       The department may adopt rules and regulations requiring health care practitioners to

18 or disseminate the information contained in the educational pamphlet developed and pub
19 pursuant to the provisions of § 23-1.12-1.

- 1 SECTION 3. Section 21-28-3.20 of the General Laws in Chapter 21-28 entitled "Uniform 2 Controlled Substances Act" is hereby amended to read as follows:
- 3

#### 21-28-3.20. Authority of practitioner to prescribe, administer, and dispense.

4 (a)(1) A practitioner, in good faith and in the course of his or her professional practice only, 5 may prescribe, administer, and dispense controlled substances, or he or she may cause the controlled substances to be administered by a nurse or intern under his or her direction and 6 7 supervision.

8

(2) When issuing an initial prescription for an opiate to an adult patient, a practitioner shall 9 not exceed the maximum daily dose requirements established by the department of health.

10 (3) Except as provided in subsection (a)(4) of this section, a practitioner shall not issue an 11 opiate prescription to a minor for more than twenty (20) doses at any time. Prior to issuing an opiate 12 prescription to a minor, a practitioner shall discuss with the parent or guardian of the minor the 13 risks associated with opiate use and the reasons why the prescription is necessary. The practitioner 14 shall document his or her discussion with the parent or guardian in the medical record.

15 (4) Notwithstanding the limitations referenced in subsection (a)(3) of this section, if, in the 16 professional medical judgment of a practitioner, a greater dosage or supply of an opiate is required 17 to treat the minor patient's acute medical condition or is necessary for the treatment of chronic pain 18 management, sickle cell related pain, intractable pain treatment as defined in chapter 37.4 of title 19 5, pain associated with a cancer diagnosis, or for palliative care, then the practitioner may issue a 20 prescription for the quantity needed to treat the acute medical condition, chronic pain, sickle cell 21 related pain, intractable pain, pain associated with a cancer diagnosis, or pain experienced while 22 the patient is in palliative care, provided that this dosage shall not exceed the maximum daily 23 dosage permitted for the treatment of this pain as set forth in the department of health regulations. 24 The condition triggering the prescription of an opiate shall be documented in the minor patient's 25 medical record, and the practitioner shall indicate that a non-opiate alternative was not appropriate 26 to address the medical condition.

27 (5) Notwithstanding subsections (a)(2) and (a)(3) of this section, this section shall not apply 28 to medications designed for the treatment of substance abuse or opioid dependence.

29 (b) The prescription-monitoring program shall be reviewed prior to starting any opioid. A 30 prescribing practitioner, or designee as authorized by § 21-28-3.32(a)(3), shall review the 31 prescription-monitoring program prior to refilling or initiating opioid therapy with an intrathecal 32 pump. For patients the prescribing practitioner is maintaining on continuous opioid therapy for pain 33 for three (3) months or longer, the prescribing practitioner shall review information from the 34 prescription-monitoring program at least every three (3) months. Documentation of that review

1 shall be noted in the patient's medical record.

(c) The director of health shall develop regulations for prescribing practitioners on
appropriate limits of opioid use in acute pain management. Initial prescriptions of opioids for acute
pain management of outpatient adults shall not exceed thirty (30) morphine milligram equivalents
(MMEs) total daily dose per day for a maximum total of twenty (20) doses, and, for pediatric
patients, the appropriate opioid dosage maximum per the department of health.

7 (d) For the purposes of this section, acute pain management shall not include chronic pain 8 management, pain associated with a cancer diagnosis, palliative or nursing home care, intractable 9 or chronic intractable pain, as provided in § 5-37.4-2, or other exception in accordance with 10 department of health regulations.

(e) Subsection (c) shall not apply to medications designed for the treatment of substance
abuse or opioid dependence.

(f) On or before September 1, 2018, the director of health shall develop, and make available to healthcare practitioners, information on best practices for co-prescribing opioid antagonists to patients. The best practices information shall identify situations in which co-prescribing an opioid antagonist may be appropriate, including, but not limited to:

(1) In conjunction with a prescription for an opioid medication, under circumstances in
which the healthcare practitioner determines the patient is at an elevated risk for an opioid drug
overdose;

(2) In conjunction with medications prescribed pursuant to a course of medication therapy
 management for the treatment of a substance use disorder involving opioids; or

(3) Under any other circumstances in which a healthcare practitioner identifies a patient as
being at an elevated risk for an opioid drug overdose.

(g) The best practices information developed pursuant to subsection (f) of this section shall
include guidelines for determining when a patient is at an elevated risk for an opioid drug overdose,
including, but not limited to, situations in which the patient:

(1) Meets the criteria provided in the opioid overdose toolkit published by the federal
substance abuse and mental health service administration;

29 (2) Is receiving high-dose, extended-release, or long-acting opioid medications;

30 (3) Has a documented history of an alcohol or substance use disorder, or a mental health
31 disorder;

32 (4) Has a respiratory ailment or other co-morbidity that may be exacerbated by the use of33 opioid medications;

34

(5) Has a known history of intravenous drug use or misuse of prescription opioids;

1 (6) Has received emergency medical care or been hospitalized for an opioid overdose; or 2 (7) Uses opioids with antidepressants, benzodiazepines, alcohol, or other drugs. 3 (h) On or before September 1, 2018, the director of health and the secretary of the executive 4 office of health and human services shall develop strategies that include: 5 (1) Allowing practitioners in non-pharmacy settings to prescribe and dispense opioid 6 antagonists; and 7 (2) Ensuring that opioid antagonists that are distributed in a non-pharmacy setting are 8 eligible for reimbursement from any health insurance carrier, as defined under chapters 18, 19, 20, 9 and 41 of title 27, and the Rhode Island medical assistance program, as defined under chapter 7.2 10 of title 42. 11 (i) Except in the provision of emergency services and care, before providing anesthesia or 12 prescribing, ordering, dispensing, or administering an opioid drug listed as a Schedule II controlled 13 substance pursuant to the provisions of chapter 28 of title 21, for the treatment of pain, a health care 14 practitioner, excluding those licensed under chapter 19.1 of title 5, shall: 15 (A) Inform the patient of available opioid alternatives for the treatment of pain, which may 16 include non-opioid medicinal drugs or drug products, interventional procedures or treatments, acupuncture, chiropractic treatments, massage therapy, physical therapy, occupational therapy, 17 18 osteopathic care or any other appropriate therapy as determined by the health care practitioner. 19 (B) Discuss the advantages and disadvantages of the use of opioid alternatives, including 20 whether the patient is at a high risk of, or has a history of, controlled substance abuse or misuse and 21 the patient's personal preferences. 22 (C) Provide the patient with the educational pamphlet developed and published pursuant 23 to § 23-1.12-1. 24 (D) Document the opioid alternatives considered in the patient's record. 25 SECTION 4. Section 5-19.1-34 of the General Laws in Chapter 5-19.1 entitled 26 "Pharmacies" is hereby amended to read as follows: 27 5-19.1-34. Notice of warning regarding use of Schedule II controlled substances to be 28 posted. 29 (a) The director of the department of health shall compile a list of at least the ten (10) most 30 prescribed drugs containing opioids and/or other Schedule II controlled substances as listed in § 31 21-28-2.08 and forward it to the board of pharmacy which shall distribute that list to all pharmacies 32 in the state. The list shall also contain warnings relating to the overuse, misuse, and mixing of those drugs with other drugs, specifically benzodiazepines, and/or alcohol, including, but not limited to, 33 34 dependence, addiction, or death.

#### LC005199 - Page 4 of 6

1	(b) Each pharmacy shall conspicuously display the list at or adjacent to the place in the
2	pharmacy where prescriptions are presented for compounding and dispensing, and shall display
3	with the list the information contained in the educational pamphlet developed and published
4	<u>pursuant to § 23-1.12-1</u> .
5	(c) The pharmacist shall also inform the patient that the pharmacist may dispense a partial
6	fill of the prescription if requested by the patient and the procedure for other partial fills until the
7	full prescription is dispensed within thirty (30) days of the date on which the prescription was
8	written.
9	SECTION 5. This act shall take effect on September 13, 2022.
