

2026 -- H 7481 SUBSTITUTE A

LC004743/SUB A

STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2026

A N A C T

RELATING TO EDUCATION -- HEALTH AND SAFETY OF PUPILS

Introduced By: Representatives Fogarty, Cortvriend, Alzate, Boylan, Carson, Shallcross  
Smith, Spears, Kazarian, Handy, and Hull

Date Introduced: February 04, 2026

Referred To: House Education

It is enacted by the General Assembly as follows:

1 SECTION 1. Chapter 16-21 of the General Laws entitled "Health and Safety of Pupils" is  
2 hereby amended by adding thereto the following sections:

3 **16-21-44. Seizure safe schools.**

4 (a) "Seizure action plan" means a standardized written, individualized health plan designed  
5 to acknowledge and prepare for the healthcare needs of a student diagnosed with a seizure disorder.  
6 The parent or guardian of each student diagnosed with a seizure disorder shall collaborate with  
7 their child's physician as well as the school nurse teacher to create an individualized seizure action  
8 plan. The seizure action plan shall include:

9 (1) Assurance of access and administration of any medication prescribed to treat seizure  
10 disorder symptoms as approved by the United States Food and Drug Administration or any  
11 successor agency; and

12 (2) Physician instructions in administering seizure medications, and manual vagus nerve  
13 stimulation, as well as the recognition of the signs and symptoms of seizures and the appropriate  
14 steps to be taken to respond to these symptoms

15 (b) Prior to administering medication prescribed to treat seizure disorder symptoms, the  
16 student's parent or guardian shall:

17 (1) Provide the school with a written authorization to administer the medication at school;

18 (2) Provide a written statement from the student's healthcare practitioner, which shall  
19 contain the following information:

- 1           (i) Student's name;  
2           (ii) The name and purpose of the medication;  
3           (iii) The prescribed dosage;  
4           (iv) The route of administration;  
5           (v) The frequency that the medication may be administered;  
6           (vi) The circumstances under which the medication may be administered; and  
7           (vii) Provide the prescribed medication to the school in its unopened, sealed package with  
8           the label affixed by the dispensing pharmacy intact.  
9           (c) The department of elementary and secondary education shall issue guidance  
10           establishing procedures for the development and content of seizure action plans.

11           **16-21-45. Requirements for administration of seizure rescue medications in a school**  
12           **setting.**

13           (a) The department of elementary and secondary education and the department of health  
14           shall issue guidance for administration of seizure rescue medications that are applied via nasal route  
15           if prescribed by the child's physician, to provide for the health and safety of children who have  
16           been medically identified as having epilepsy/seizure disorder. This guidance shall include  
17           procedures whereby:

18           (1) A parent or legal guardian of any child may expressly authorize school employees or  
19           those employed on behalf of the school, for when there is no school nurse immediately available,  
20           to administer a United States Food and Drug Administration (FDA) approved seizure rescue  
21           medication to the child in case of an emergency, while at school or school sponsored activities.  
22           Any school employee or those employed on behalf of the school who are authorized to administer  
23           seizure rescue medications shall be trained in seizure first aid using the Epilepsy Foundation  
24           Seizure Training for School Personnel Program and American Heart Association or American Red  
25           Cross CPR certification;

26           (2) The pre-dosed and pre-packaged seizure rescue medication shall be kept in a locked,  
27           secure, designated area, readily available;

28           (3) Seizure rescue medication administration training may be provided by a licensed  
29           physician, physician assistant, advanced practiced registered nurse, or registered nurse; provided  
30           however, in no case shall school nurse teachers be required to provide training;

31           (4) The school administration shall allow staff to voluntarily assist with the emergency  
32           administration of a seizure rescue medication when authorized by a parent or legal guardian; and

33           (5) The school district shall provide training to all staff who volunteer to assist with the  
34           administration of a seizure rescue medication.

1           (b) A school employee, including administrative staff, shall not be subject to penalty or  
2 disciplinary action for refusing to be trained in the administration of a seizure rescue medication.

3           (c) A parent or legal guardian shall provide a seizure action plan or physician's order,  
4 signed by the student's healthcare provider, that prescribes the care and assistance needed by the  
5 student including administration of seizure rescue medications.

6           (d) The statements and seizure action plan required by this section shall be kept on file in  
7 the office of the school nurse and/or school administrator and with the individual authorized to  
8 administer the seizure rescue medication.

9           (e) The seizure action plan required by this section shall be distributed to any school  
10 personnel or volunteers, identified in the seizure action plan, who is responsible for the supervision  
11 or care of the student with a seizure disorder. A student's parent/guardian shall distribute the  
12 authorized seizure action plan required by this section to any non-school personnel identified in the  
13 seizure action plan, who is responsible for the supervision or care of the student with a seizure  
14 disorder.

15           (f) The presence of a registered nurse employed full-time by a school who assumes  
16 responsibility for the administration of seizure medications, and the administration oversight of  
17 vagus nerve stimulation, shall fulfill the requirements of this section.

18           (g) The permission for the administration of any of the medications subject to the  
19 provisions of this section shall be effective for the school year in which it is granted and shall be  
20 renewed each following school year upon fulfilling the requirements of this section.

21           (h) The requirements of this section shall apply only to schools that have a student enrolled  
22 who has a seizure disorder or has a seizure medication prescribed by the student's healthcare  
23 provider to treat seizure disorder symptoms approved by the FDA or any successor agency.

24           (i) A school district, school district employee, or agent acting in good faith and in  
25 substantial compliance with the student's individual health plan, including a seizure action plan,  
26 and the instructions of the student's licensed healthcare professional, that provides assistance or  
27 services under this section shall not be liable for civil damages in their individual, governmental,  
28 corporate, or other capacities as a result of the services provided under this section to students with  
29 epilepsy or seizure disorders.

30           SECTION 2. This act shall take effect upon passage.

EXPLANATION  
BY THE LEGISLATIVE COUNCIL  
OF  
A N A C T  
RELATING TO EDUCATION -- HEALTH AND SAFETY OF PUPILS

\*\*\*

1           This act would require the department of elementary and secondary education and the  
2 department of health to issue guidance for the administration of seizure rescue medications  
3 administered for students who have been medically identified as having epilepsy/seizure disorder.

4           This act would take effect upon passage.
