2006 -- H 7756 SUBSTITUTE A AS AMENDED

AN ACT RELATING TO HEALTH AND SAFETY -- ANTI-IDLING ACT

Mr. Speaker:

I hereby move to amend 2006 -- H 7756 SUBSTITUTE A AS AMENDED, entitled "AN ACT RELATING TO HEALTH AND SAFETY -- ANTI-IDLING ACT", as follows:

By deleting all of the language following the enactment clause and inserting in place thereof the following:

"SECTION 1. Chapter 23-23 of the General Laws entitled "Air Pollution" is hereby amended by adding thereto the following sections:

23-23-29.1 Findings of fact. – The general assembly hereby finds as follows:

(a) Motor vehicle exhaust is the largest source of air pollution in Rhode Island, and idling vehicles emit higher concentrations of harmful pollutants than moving vehicles;

(b) Vehicle exhaust is hazardous to human health. Studies have linked pollution from vehicles to increased rates of cancer, lung and heart disease, asthma and allergies, urban smog and climate change;

(c) Fine particulate matter in diesel exhaust is particularly harmful to children and seniors. Tiny particles can lodge deep within human lungs, where they can trigger asthma attacks and stunt lung growth in children, and contribute to chronic obstructive pulmonary disorder and heart attacks in seniors;

(d) Asthma is reaching epidemic proportions in Rhode Island. More than one hundred thousand (100,000) people in Rhode Island have been diagnosed with asthma, including one out of every ten (10) children. Asthma is the most common chronic disease in children and responsible for the most school absences in Rhode Island;

(e) Vehicle idling waste money. On average, an idling truck burns one gallon of fuel per hour. A locomotive or other heavy duty engine may burn anywhere from three (3) to eleven (11) gallons per hour;

(f) Excessive idling creates the need for more frequent oil and oil filter changes, and speeds engine wear, reducing the amount of time before an engine needs to be rebuilt;

(g) Even on the coldest winter days, modern engines need no more than five (5) minutes to warm up; and

(h) To date, other states including Connecticut and Massachusetts have passed laws that limit the amount of time vehicles are permitted to idle.

23-23-29.2 Diesel motor vehicle engine idling. – On or before July 1, 2007, the department shall adopt rules governing diesel engine idling to restrict the unnecessary operation of diesel motor vehicle engines. The rules shall be generally consistent with similar restrictions established by law or regulation in Massachusetts and Connecticut and shall provide that no person shall cause, allow or permit the unnecessary operation of the engine of a diesel motor vehicle while said vehicle is stopped for a period of time in excess of five (5) consecutive minutes in any sixty (60) minute period. Unnecessary operation of a diesel motor vehicle shall not include such periods and circumstances as the department, may determine as reasonably requiring that the engine remain idling, which periods may include, but not be limited to, periods when it is necessary for a vehicle to remain motionless due to traffic conditions or at the direction of a law enforcement official; when it is necessary to operate defrosting, heating, or cooling equipment to ensure the health or safety of the driver or passengers or to operate auxiliary equipment; when it is necessary to bring the engine to the manufacturer's recommended operating temperature or when the engine is undergoing maintenance or inspection. The requirements of this section shall not apply to police, fire, rescue, ambulance and other public safety vehicles, military vehicles, armored vehicles that are being loaded or unloaded or are waiting to be loaded or unloaded, non-road vehicles, including farm vehicles, locomotives, aircraft, marine vessels, stationary diesel engines or auxiliary power units, or vehicles making deliveries of fuel or energy products.

23-23-29.3 Non-road diesel engine idling. – On or before July 1, 2007, the department shall adopt rules governing diesel engine idling to restrict the unnecessary operation of non-road diesel engines. So far as is reasonably feasible, the rules shall provide that no entity shall cause, suffer, allow or permit the unnecessary idling of a non-road diesel engine. Non-road diesel engines to be considered in this rulemaking shall include, but may not be limited to, construction engines, airport ground support equipment, commercial and industrial equipment. Unnecessary idling shall not include such periods and circumstances as the department may determine as reasonably requiring that the engine remain idling, which periods may include, but not be limited to, when airfield maintenance vehicles are being used on a state-owned or operated airport. This provision shall not extend to any diesel powered engine and/or vehicle that must continuously operate while stationary in order to function properly, a vehicle making deliveries of fuel or energy products, or to insure workplace safety.

23-23-29.4. Sources of diesel pollution. – On or before January 1, 2007, the department shall identify sources of diesel pollution in Rhode Island and strategies for reducing pollution from identified sources and report the findings to the governor and general assembly.

23-23-29.5. Enforcement. – The responsibility and jurisdiction for enforcement of section 23-23-29.1 through section 23-23-29.4 shall be with state and local law enforcement authorities, including, but not limited to, state and local police and parking enforcement personnel, the Rhode Island department of environmental management and the Rhode Island department of motor vehicles.

SECTION 2. Title 31 of the General Laws entitled "MOTOR AND OTHER VEHICLES" is hereby amended by adding thereto the following chapter:

CHAPTER 16.1IDLING

31-16.1-1. Purpose. – The purposes of this chapter are to protect health and the environment by reducing air emissions and to conserve fuel by restricting the unnecessary operation of diesel engines.

31-16.1-2. Powers of the department of environmental management. – The department of environmental management shall have the power and authority as set forth in section 23-23-29.1 through section 23-23-29.5 to establish rules for engine idling.

31-16.1-3. Restrictions on idling for diesel engines. – No person shall on or after July 1, 2007, cause, allow or permit the unnecessary operation of the diesel engine vehicle while said vehicle is stopped for a period of time in excess of five (5) consecutive minutes in any sixty (60) minute period unless exempted pursuant to regulations adopted by the department of environmental management. Failure to operate the diesel engine vehicle in conformity with the rules of the department of environmental management adopted pursuant to section 23-23-20.2 shall constitute a violation of this chapter.

31-16.1-4. Penalties. – Any person who violates the provisions of this chapter shall be punished by a fine of not more than one hundred dollars (\$100) for the first offense, nor more than five hundred dollars (\$500) for each succeeding offense.

SECTION 3. Section 31-41.1-4 of the General Laws in Chapter 31-41.1 entitled "Adjudication of Traffic Offenses" is hereby amended to read as follows:

31-41.1-4. Schedule of violations. -- (a) The penalties for violations of the enumerated sections, listed in numerical order, correspond to the fines described. However, those offenses for which punishments which may vary according to the severity of the offense, or punishment which require the violator to perform a service, shall be heard and decided by the traffic tribunal or municipal court. The following violations may be handled administratively through the method prescribed in this chapter. This list is not exclusive and jurisdiction may be conferred on the traffic tribunal with regard to other violations.
